

# NEES@Lehigh: Real-Time Multi-Directional Hybrid Simulation Seismic Testing Webinar February 27, 2009 1-3 PM EST

NEES@Lehigh RTMD Equipment Site Director Professor James Ricles and RTMD Operations staff members will lead a workshop developed around the following attendee objectives:

- To understand the technical capabilities of the NEES@Lehigh RTMD site and equipment
- To understand the sites capabilities for hybrid simulation, data acquisition, data modeling, data archiving and remote participation
- To understand how the RTMD site can be utilized to enhance your affiliation's research needs
- To obtain the basic information required to write NEESR research proposals utilizing the RTMD site

Workshop offered free of charge; registration required

Additional information are available from: [www.nees.lehigh.edu/webinar](http://www.nees.lehigh.edu/webinar) or contact: Gary Novak, RTMD Operations Manager 610-758-5488 or [gsn207@lehigh.edu](mailto:gsn207@lehigh.edu)
